

96 tip combs

8-tip combs

Magnetic & Working racks for stripped collection tubes and deep well strips

Racks for DWS6

Racks for deep 8 well dilution and collection strips

Lids for racks

Microcentrifuge MCR24 with angle rotor for 2 SCT/SFC-8 and 10 singl spin columns & collection tubes

Thermo dry block for 2 SCT-8

Vortex VR1 with regulated speed

Manifold for 2 stripped or 8 singl filtering spen columnes

ABOUT REPLICON STRIPEX SYSTEM:

At the core of our StripEx System lies an advanced 8-position deep well column-based system, created to solve the universal challenge faced by modern laboratories — bridging the gap between slow, manual workflows and overly complex automation. No compromise, no unnecessary bulk — just a clean, intelligent solution that delivers speed, consistency, and control.

MAGNETIC BEADS APPLICATIONS

Stripped
collection
tubes and
caps

#DBR2

Dry block
thermostat for 2
collection strips

#VR1

Vortex
with regulated
speed

#MR2

Magrack for 2
collection strips

#FVLR24

Microcentrifuge for
2 collection strips

#MRS24

Micro centrifuge
with rotor for 2 strip
collector and 10 MCT
1.5-2 ml, 18000 g

#RR210

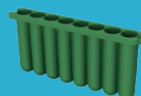

Angle rotor for
2 collection
strips and
10 microcentrifuge
tubes

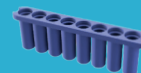

SPIN COLUMNS APPLICATIONS

Stripped collection tubes,
columns, adaptors

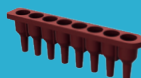

#SCT8

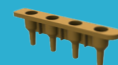

#SFC8

#A8

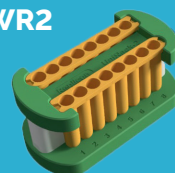

#A4

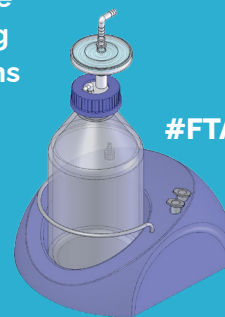

Manifold
for stripped
& single
filtering
columns

#WR2

Working Rack

#FTA1R

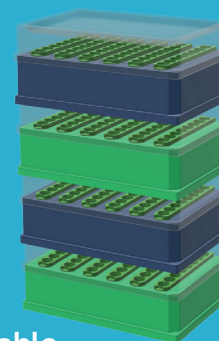

Aspirator for TM28

STORAGE

#LR68

#R6
